NOVI^{PRO}™ HAND-LAID BRICK SIDING PANEL **FAST-FIT**
Adding distinction and refinement to your home at a fraction of the cost

NOVIPRO™ HAND-LAID BRICK SIDING PANEL FAST-FIT

Adding distinction and refinement to your home at a fraction of the cost

The NOVIPRO™ Hand-Laid Brick replica siding system can give your home a fresh look and add distinction and refinement at a fraction of the cost.

The NOVIPRO™ polymer panel can be very quickly installed and used to give your home a natural look by replicating the intricate elements of real brick used on traditional homes.

Ideal for feature walls on your home, foundations, entryways, interior feature walls or on any walls on your house.

Testing performed

Test	Standard testing	Result for NOVIPRO™
Fire rating	In accordance with E84	Class C fire resistance
Impact	In accordance with ASTM3679	Pass
Accelerated UV exposure	In accordance with ASTM1435	Virtually no fading
Wind	In accordance with ASTM5206	> 160MPH

* Certified testing reports by independent laboratories

New Performance Features FAST-FIT

- Replicates the appearance of real masonry at a fraction of the cost.
- Easy-to-install resulting in considerable savings on labor.
- Ideal for remodeling projects as it requires no modifications to foundation.
- Made of injection molded copolymer for superior quality.
- Resists warping and impact at extreme temperature variations.
- Superior quality coating on blended colors with UV stabilizer to prevent discoloration.
- Accessories available in matching colors (ex. Corners, starter strips, J-channels)
- Products from different production runs can be mixed and matched.

Virtually maintenance-free

3

Superior interlocking system designed and tested to withstand hurricane windload.

3 Panels are held securely in place with extra long lock tabs that engage easily for faster and easier installation.

1

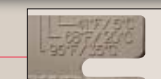

Nail locators that facilitate installation by indicating precise nail locations.

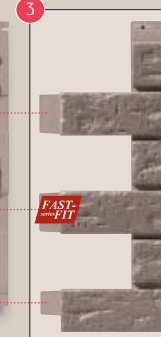

Centered nailing hole to secure the panel.

Angle that facilitates insertion.

Special temperature lines molded to ensure precise installation.

3

3

Larger tabs on the back of the panel to facilitate insertion.

2

Dimensions
(18.5" x 48" / 46.99 cm x 121.9 cm)
9 panels / approx. 50 square feet per carton

Brick corner

17.33"

5.75"
