# NOVIPRO™ PERFECT SHAKE PANEL FAST-FIT

The distinctive charm and richness of real wood without the maintenance

Ideal for either new construction or remodeling. Home owners and builders will appreciate the seamless authentic look of this triple 5 Perfect Shake siding system.

The NOVIPRO™ Perfect Shake siding system can reproduce anywhere the look of homes found on the coast line of New England without the costly maintenance associated with real wood.

Its 75"- long interlocking panels make installation fast and as easy as that of regular vinyl siding.

### Testing performed

Test	Standard testing	Result for NOVIPRO™
Fire rating	In accordance with E84	Class C fire resistance
Impact	In accordance with ASTM5679	Pass
Accelerated U.V. exposure	In accordance with ASTM1435	Virtually no fading
Wind	In accordance with ASTM5206	> 160MPH

\* Certified testing reports by independent laboratories

## New Performance Features

- The Novipro™ Perfect Shake siding system is the ideal choice for those who want a seamless and bolder look on their house, competitive pricing, and an alternative to regular vinyl siding and wood composite siding products.
- Longer panel for faster installation.
- Made of injection molded copolymer for superior quality.
- Resists warping and impact at extreme temperature variations.
- Standard color-thru panel with UV. stabilizer to prevent discoloration.
- Accessories available in matching colors (ex. Corners, starter strips, J-channels)
- Easy to install.

What is the Fast-Fit approach?  
New features that simplify installation!
