NOVIPRO series<sup>®</sup> Staggered Edge Shake. A decorative siding born from innovative technology and engineered to withstand northern winters, southern summers and the unpredictable changes that Mother Nature has in store.

NOVIK products are designed to protect your home from the elements and to maintain its beauty without the need for difficult, costly, time consuming, ongoing maintenance. Choosing NOVIK products will free you to spend your time and your money on the more important things in life.

The Staggered Edge Shake is offered in an array of colors to harmonize with your personal style.

Product shown: Staggered Edge Shake Khaki #018

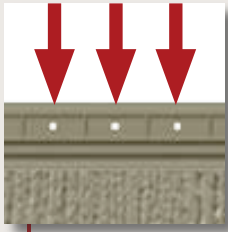

## Products Highlights

- Realistic deep wood-grain texture without the maintenance and the inconveniences of real wood.
- High performance polymer siding system.
- To give a more natural random pattern on the wall, Staggered Edge comes with two different staggered patterns in each box.
- Specially formulated polymer engineered to withstand extreme temperatures.
- Color present throughout the panel.
- Looks like authentic cedar staggered shake siding.
- Formulated with superior U.V. inhibitors.
- Laboratory test results exceed industry standards for fire rating, wind resistance, impact resistance and fading.
- No special tool needed for installation.
- Sturdy lightweight material makes installation fast and easy.
- Truly maintenance free.
- Never needs to be painted.
- Seamless installation.
- **Lifetime limited warranty.**

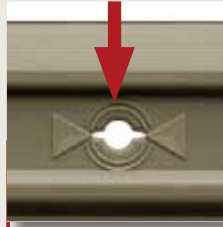

# Enhanced Performance Features

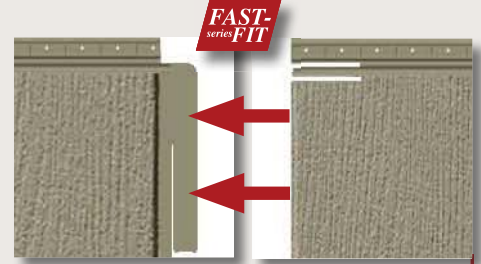

"Nail locators" facilitate the installation by precisely showing nail position.

"Hammer-Stopper" system limits nail penetration to ensure smooth panel expansion and retraction.

The center-panel nailing hole helps spread the panel's expansion and retraction evenly.

The panel's horizontal overlapping system permits faster and easier installation, and alignment.

Product shown: Staggered Edge Shake Evergreen #076.  
Overall dimensions: 51.1" X 8.4" (129.7 cm x 21.3 cm)  
23 panels each box: approx. 50 square feet (4.65 m<sup>2</sup>) / 2.2 ft<sup>2</sup> (0.2 m<sup>2</sup>) per panel

**Truly maintenance free.**  
**Never needs to be painted.**

The panel can be cut using standard vinyl knife or cutter.

Real wood-grain texture.

## Tests

Test	Standard testing	Result for NOVIPRO series®
Fire rating	In accordance with ASTM E84	Class C fire resistance
Impact	In accordance with ASTM D4226	>35 in-lbf
Accelerated UV exposure	In accordance with ASTM G154/G155/D1435	Virtually no fading
Wind	In accordance with ASTM E72/D5206	Surpassed dade County requirements of 160 mi/h (258 km/h)

\*All testing in accordance with ICC-ES AC07 (Acceptance criteria for polymer siding systems)  
Product certified by independent laboratories.

## Accessories

**Starter Strip 10' (3,05 m)**
